Balancing chemical equations project (poster).

All students must print this page for the evaluation of your project

	Equation balanced and written properly with right amount of coefficients (2 points)	Proper format with broken down elements on each side of the yield sign (2 points)	All atoms of the same elements matching in color (2 points)	Size of the atoms of each element match the mass (2 points)	Each atom is labeled with the appropriate element's symbol (1 point)	The poster, drawings, coloring, and presentation is neat (1 point)	Total points earned per equation
Equation 1							
Equation 2							
Equation 3							
Equation 4							
Equation 5							
Equation 6							
Equation 7							
Equation 8							
Equation 9							
Equation 10							
Total points earned for the entire poster
